

Errata for Publications

The following misprints have been found in Papers I-V:

- **Paper III**

- p. 211, Eq. (5)

- The correct form of the equation is $x_c = (1 + \gamma) \frac{w^2}{\lambda}$.

- **Papers III and IV**

- Paper III, p. 208, Section IIA, line 7

- Paper IV, p. 1840, Section II, line 10

- The SPUDT consists of a reflector section and two transducer sections. However, the left-hand-side transducer section has 7 electrodes and the right-hand-side has 18 electrodes. The transducer sections thus do not have equal lengths.
