

## ERRATA

1. In article [VIII] the bottom row is missing from the table 2b.

**Table 2a.** Experimental local mixing times [s], corresponding with the grid in Figure 1a. 352 rpm, 0.75 wt-%. Local mixing times near the vessel wall, between two baffles. Impeller rotating counterclockwise.

2. In article [III] Figure 2 has a wrong simulated BSD. The results should be multiplied with 2 to be comparable with the experimental results.
