

Errata

In Publication I, in the caption of Figure 5, the delay time was 5.0 μs (not 50.0 μs). Equations (1) and (2) should be

In Publication III, at the end of section 2, measurements were performed in a 5.6 mm diameter sample cell (not 8 mm), and luminescence was measured after a 50 μs delay following the pulse (not 50 s).

In Publication VII, in the section 2.3.2., the coated cathode was washed by letting 4·1mL of Wallac Washing obtained from Wallac Oy Turku Finland flow over the electrode (not distilled water).
