

## Concept mapping and dialogue mapping in information seeking practices: a case study

There are huge possibilities for using concept and dialogue mapping tools in information retrieval. With the help of the software the subjects can be analysed and divided into smaller conceptual parts. Then the actual task is easier to carry out.

In the past two years the Helsinki University of Technology TKK library and the Department of Computer Science and Engineering have co-operated with an interesting project. New software for making mind maps, concept maps and dialogue maps are being used for structuring information retrieval. These methods have been studied together, taught on separate courses and presentations about the methods have been given. This project has got a warm reception because the idea can be adapted throughout the university and therefore several departments may benefit.

The paper will discuss the experiences of the project and highlight the possibilities incorporating the concept and dialogue mapping techniques in information literacy activities. Visualization of information seeking increases creativity. Illustrations can also capture complex entities, as demonstrated below in Figure 1.

## Biographical statement

### Jouni Nevalainen

Information Specialist, M.Sc, Mr.

M.Sc. in Engineering 2005. Helsinki University of Technology, Dept. of Electrical and Communications Engineering, Espoo, including Information Research (35 credits).

*Helsinki University of Technology Library*

[jouni.nevalainen@tkk.fi](mailto:jouni.nevalainen@tkk.fi)

### Kirsi Heino

Information Specialist, M.Sc, Ms.

M.Sc. in Engineering 1993. Helsinki University of Technology, Dept. of Civil and Environmental Engineering, Espoo.

Postgraduate course/certificate in Information Management and Information Services 2000. Helsinki University of Technology, Lifelong Learning Institute Dipoli, Espoo. Basic studies in pedagogy (15 credits) 2003. Open University, Jyväskylä.

*Helsinki University of Technology Library*

[kirsi.heino@tkk.fi](mailto:kirsi.heino@tkk.fi)

### Virpi Palmgren

Information Specialist, M.Sc, Ms.

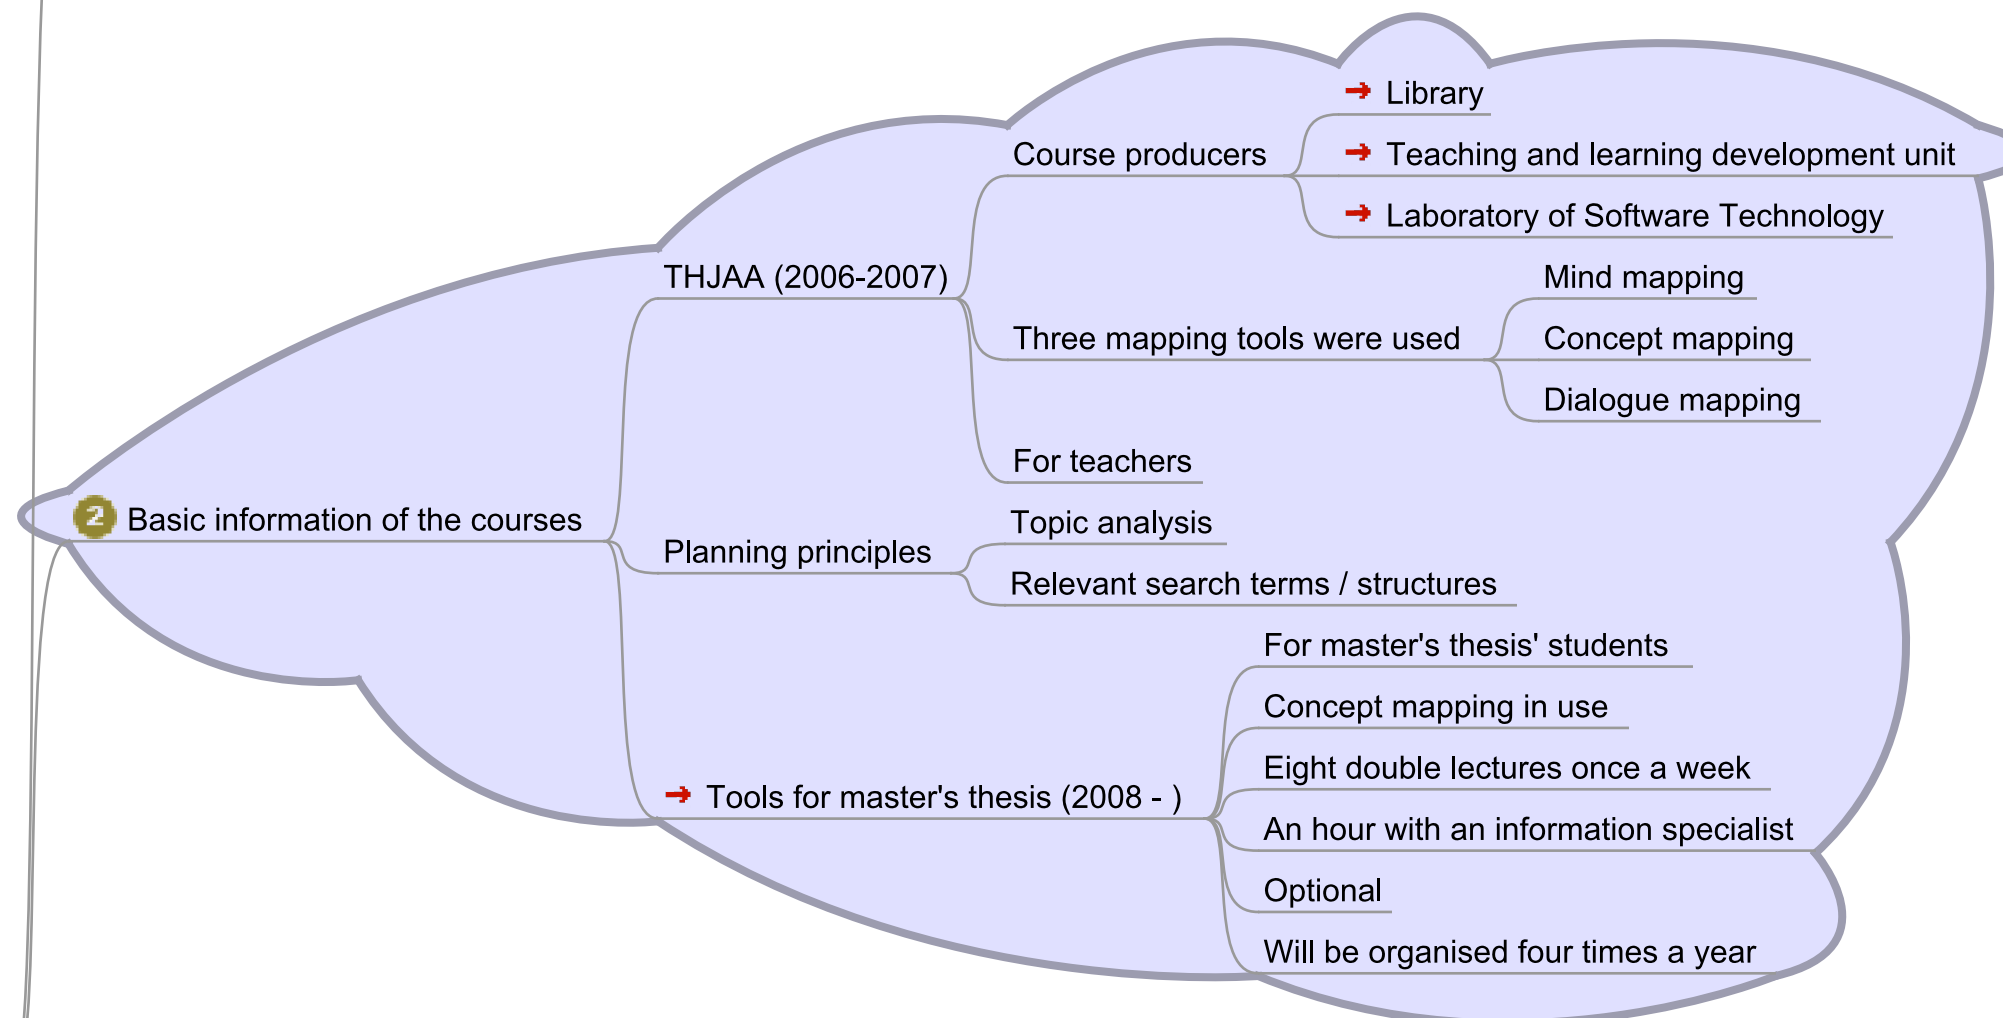

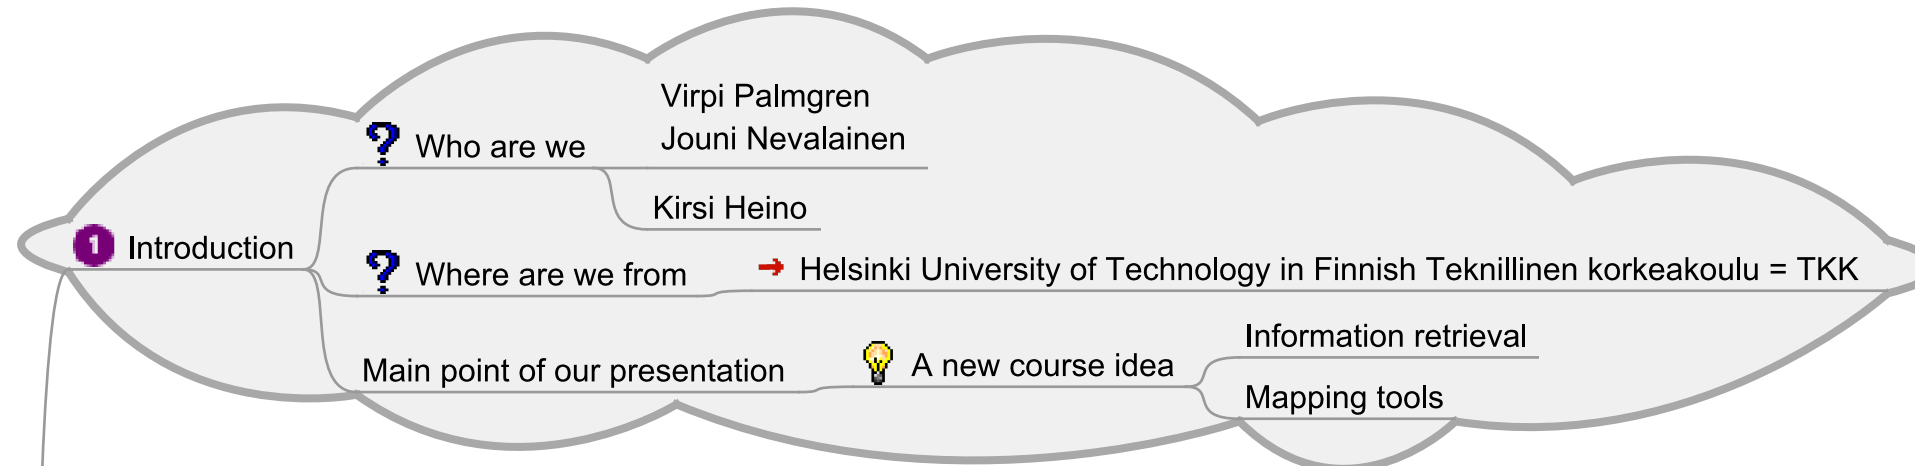

M.Sc. in Engineering 1984. Helsinki University of Technology, Dept. of Chemistry, Espoo.

Postgraduate course/certificate in Information Management and Information Services 1988. Helsinki University of Technology, Center of Cont. Studies, Espoo.

Program on Higher Education Pedagogy (15 credits) 2000. Helsinki University of Technology, Lifelong Learning Institute Dipoli, Espoo.

*Helsinki University of Technology Library*
