The authors regret that text in Section 3.4 in Paper II (page 231) contained error in the mean WTP estimates. The error was in the text only (not in Table 3 of Paper II) and does not concern further analyses. The initial and corrected text appear below.

“...For example, respondents in Treatment 1 were ‘certainly’ willing to make payments in either the interval EUR 20.70–EUR 37.30 or the interval EUR 29.70–EUR 49.60 depending on the estimator used (Turnbull/Kriström). If the ‘true’ WTP is assumed to be the midpoint of a payment interval, the corresponding WTP would be EUR 41.80 per year in Treatment 1 with Kriström’s estimator.” (Initial text)

“For example, respondents in Treatment 1 were ‘certainly’ willing to make payments in either the interval EUR 22.10–EUR 39.60 or the interval EUR 31.00–EUR 54.30 depending on the estimator used (Turnbull/Kriström). If the ‘true’ WTP is assumed to be the midpoint of a payment interval, the corresponding WTP would be EUR 43.80 per year in Treatment 1 with Kriström’s estimator.” (Corrected text)
